To the good thinking people of Gettysburg, a few words from Manager Walter of The Walter Theatre.
Is it right? Is it religion to ruin a man's business, to try to take the bread and butter out of his and his family's mouth when he is not to blame? The Monte Carlo Girls for which I am being criticised was booked to me as a FIRST CLASS GLASS attraction. The show business with me is just like making a purchase we are ALL liable to get bad goods some times. I booked a number of attractions this season and they have all proved to be pleasing with the exception of this last one. Now don't blame me for this one had show it was not me. It was the people who gave the show. The Theatre is just as clean as it was before and the Theatre is properly conducted and you can always feel assured of getting your money's worth. So far, in line follow the crowd to see.

"THE BERTHA NOSS CO." To-night
The biggest 5c and 10c show ever offered to the people of Gettysburg. We respectfully solicit your patronage.
Very respectfully yours,
JOHN F. WALTER, Manager Walter's Theatre.

Gettysburg Gets Army Maneuvers

Largest Military Attraction of East Comes to Gettysburg for Six Weeks' Encampment
---Assistant Secretary of War Oliver Gives out the Pleasant Information.
Gettysburg's Biggest Show.

Congressman Lafean this morning telephoned to C. William Beales that he was informed by Assistant Secretary of War Oliver that Gettysburg had been selected as the site for the maneuvers of the Regular Army and National Guards of the Middle Atlantic States to be held from July 15 to September 1.

This means that Gettysburg gets the biggest military attraction in the history of the town, and decidedly the largest camp which will be held in this section of the United States during the coming summer. For six weeks five thousand troops will be in camp here and the town will have a drawing card such as it has not had for a quarter of a century.

WHAT IT MEANS

A large detachment of Regular Army officers and men from the Eastern States will be in camp during the entire time. Practically all of the Regulars in this section will be under canvas as only small guards will be left at the various posts.

Every week the various states in this section will send detachments to Gettysburg to undergo instruction under the Regulars and the regiments of troops from other states will be constantly changing as different bodies of troops are sent in to be under the supervision of the Regular Army officers.

Mimic warfare will be carried on the entire time and those under whose charge the maneuvers will take place desire a vast amount of territory secured for the battles, sieges and various other military movements which will be carried on. About six or seven hundred acres will be required for the camp site alone without taking into consideration the maneuver ground.

CREDIT FOR ATTRACTION

That Gettysburg secured these maneuvers was due entirely to the fact that people interested in the welfare of the town got to work and hustled. The old adage "everything comes to him who waits" was considered a back number and some energetic work was put through, the result of which is most gratifying.

Several weeks ago word was received by the Western Maryland railroad officials at this place that information was wanted as to the facilities of various places along their lines in this and other states for handling the maneuvers. Without waiting a moment the Retail Merchants' Association got to work and before twenty-four hours had passed sent a committee to see Congressman Lafean and to enlist his support. He gladly consented to take up the matter with the War Department.

Mr. Lafean at once arranged for an audience with Assistant Secretary of War Oliver and a committee of four from the Merchants' Association went to Washington to present Gettysburg's claims to the authorities. They, with railroad officials, were given an audience and following their visit Captain Wells came to Gettysburg.

The treatment given that gentleman, and the complete manner in which the facilities for handling military camps was pointed out to him, left their deep impress upon his mind with the result that Gettysburg gets the maneuvers.

OUR ADVANTAGES

Captain Wells was much impressed with the thorough knowledge possessed in Gettysburg of just what is wanted in the line of handling encampments. Facilities for hauling equipment were explained to Captain Wells and he remarked to one of the committee from the association "I see you know how to take care of an encampment."

The representatives of the two railroads entering Gettysburg explained in detail to Captain Wells the trackage which could be supplied and the fact that both were used to transporting troops to and from Gettysburg and were fully capable of attending to that kind of business.

Coupled with the business end of the proposition Captain Wells was deeply impressed with the sentimental value attached to Gettysburg as a camping ground. It was his first visit to this place and every spot on the battlefield held unusual interest for him. He was enthusiastic over the beauties of the battlefield and as the wide circuit of the entire field was made he became more and more deeply impressed with the patriotic influence a camp in the neighborhood of such a site should have upon officers and men. The topography of the land he found was exactly adapted to maneuver purposes and he was not at all slow in expressing his pleasure at finding a place so admirably suited to the wants and needs of the military camp and its operations.

That Gettysburg deserves credit for securing the big camp is made all the more manifest when it is known that a dozen or more other places were all competitors for the same thing. Every one of these places pressed claims and worked for the attraction but Gettysburg won.

There was scarcely a state included in the group known as the Middle Atlantic States which did not put out at least one place which wanted the maneuvers. Virginia presented a number, Pennsylvania put forth several, Maryland also had a few and the other states were not at all slow to make known their wants.

NOW, TO THE FARMERS

Now that Gettysburg is to have the maneuvers it is earnestly to be hoped that the land owners, whose territory is desired for camp sites and maneuvers, will be reasonable in their demands. The camp will be a benefit to the entire community and no damage will be done to crops except possibly the corn crop and the Government agrees to pay for all such damages. The landowners will be visited in a few days and a cordial and reasonable reception should await them.

A BIG SUMMER

The tourist trade for the season of 1910 has already opened briskly and the month of March is not yet over, the business has been remarkably good. Indications are brighter than they have been for many years and Gettysburg is counting on her biggest summer.

The automobile traffic, which has been increasing very year and which is a big factor, has begun in earnest and a number of parties have been here during the past ten days. One of these came all the way from Michigan and a number of others from a distance have spent a day or two here. The prospects are that this year will far surpass all former seasons in the number of automobilists who will make Gettysburg an excursion point.

National Guard matters have also kept local parties busy and it is said that Gettysburg has good reason to expect the division encampment this summer. The state troops would go into camp a few days before the maneuver camp would open and continue in camp for ten days. There would be no interference between the two. It is probable that one of Pennsylvania's four brigades will be sent to the maneuver camp and will not be present at the state encampment. Each brigade now has three regiments.

The Knights of the Golden Eagle convention comes in May and regimental reunions will be held here during the summer months. These with the customary tourist and excursion business should make the summer a prosperous one for Gettysburg.

COUNTY GROWERS ARE INTERESTED

Hearing of Charges against Zoologist Surface Watched with Interest by Adams County Fruit Growers. Charges Fall.

Adams County fruit growers will be interested to know that State Economic Zoologist Harvey A. Surface was under fire for eight hours Tuesday in the opening session held by Secretary of Agriculture N. B. Critefield on the charges brought against the State's scientist by his former assistant, A. F. Satterthwait, of Chester County.

Dr. Surface's official actions, his management of his division and his personal conduct in the office, all afforded basis for attacks, but under sharp examination of his counsel none of the charges were shown to be trivial or else just Satterthwait's conceptions of ordinary incidents.

It was brought out very plainly in the testimony of the former that he and his chief had differed in many matters prior to the disappearance of the assistant's name from the State payroll last January.

John E. Myers, who was at one time Surface's farmer, claimed he had drawn \$40 a month for doing nothing, but on further examination admitted that he had been forced to husk corn in January. He also said that most of the time he just stood around with his hands in his pockets.

"And that was what Surface objected to," put in the doctor's lawyer. The zoologist says he will reply to all charges and show how little things have been magnified, and declares he will reveal the animus behind the charges.

Satterthwait was on the stand all morning and while in several instances he apparently established serious charges, most of his allegations went to pieces under cross examination.

The most important charges he brought out were that Dr. Surface had employed laborers on his farm at State expense and had used State money for private purposes.

On cross examination Satterthwait declared he could not say if the materials were used in experimental work and asserted that he would not consider the Surface farm an experimental station.

He also charged the zoologist with opening letters addressed to himself and other attaches of the division, but could not prove negligence of the zoologist in regard to exhibits and various State property. He denied that he had known of practically everything included in his charges months before he had the disagreement with Dr. Surface, which led to his severance of connection with the division.

SHARRAH--KEPNER

John C. Sharrah, Cashtown, and Miss Mary A. Kepner, Virginia Mills, were united in marriage by Rev. J. L. Grimm at the First United Brethren parsonage, Waynesboro, Monday afternoon.

They went from Adams county to Waynesboro and went to the United Brethren parsonage while Rev. Mr. Grimm was conducting a funeral service.

There they remained patiently for an hour until the minister returned, being hurried somewhat by a telephone message from his wife who believed the waiting couple were becoming somewhat impatient.

WHITE GIRL ATTACKED

Colored Man in Maryland Jail Afraid of Mob Violence.

Easton, Md., March 23.—Excitement is running high here over the arrest of William Dickerson, colored, who is charged with an attack on Sunday evening upon Miss Annie Grund, the sixteen-year-old daughter of August Grund, a farmer, living several miles from Easton.

When opposite a thick piece of colored Miss Grund was grabbed by a colored man, who dragged her from the road into the woods, tearing her clothes nearly off her, but with the aid of a hatpin and her screams she succeeded in frightening him off, as he heard persons coming down the road.

Dickerson was found on Trippes creek and arrested. The colored man seemed very much excited and wanted to know if they could get him after he was in jail.

SETTLING PHILA. TROLLEY STRIKE

Final Negotiations For Peace Being Held.

Philadelphia, March 23.—The general strike was broken when the delegates from all of the unions of the textile and hosiery workers voted unanimously to go back to work.

A few minutes after this announcement was made it became known that William D. Mahon, President Murphy, of the Central Labor union; members of the committee of ten, Vice President Wolf, of the Rapid Transit company, and other directors and State Senator James P. McNichol were in conference at the home of George H. Earle and were near an agreement which would end the car strike.

The arbitrary action of the carmen's committee of nineteen in repudiating Mr. Mahon's agreement with Senator Penrose resulted almost immediately in alienating the principal labor union body that had been helping the carmen in their fight.

Of these unions the textile and hosiery workers were by far the most powerful. Kensington, where the looms are located, has been the stronghold of the general strike. It was where the boycott did most damage to business. According to the union leaders there were 60,000 of the textile and hosiery workers on strike.

At once the carmen's delegates began to make overtures to everybody they hoped could bring about a settlement of their quarrel with the Rapid Transit company. John J. Murphy went to George H. Earle and asked him to make another effort. State Senator McNichol and Pratt were called in.

It was announced that a final settlement will be made.

Bank Must Pay \$700 Damages.

Wilkes-Barre, Pa., March 23.—Because a clerk of the First National bank of this city, through an error, permitted a check of Samuel Simpson to go to protest when he had money in the bank, the bank was ordered by a jury to pay Simpson \$700 damages. Simpson claimed \$10,000, because, as he said, the protesting of the check was a serious reflection upon his business integrity and that his credit was injured with business houses with which he deals.

Hurrying Home to Die.

San Antonio, Tex., March 23.—In a special train, with all tracks clear, John F. Walsh, of Colorado, is believed to be hurrying to his home in Washington to put his affairs in shape for death, which cannot be long held off. Mr. Walsh came here five weeks ago, but his condition hasn't improved as was hoped. Physicians, giving up hope of one climate being more beneficial than another, decided to take him back to Washington.

New York, March 23.—Tom Brown a messenger in the employ of the Carnegie Trust company, stole \$20,000 of the company's money six weeks ago, eloped with a Jersey City girl and went to Los Angeles, Cal., where he was arrested. He will be brought back to answer to the charge of abduction as well as grand larceny.

CANNON'S MEN SPRING SURPRISE

Call Republican Caucus For Tonight.

TO NAME NEW COMMITTEE

Democrats Will Caucus Tomorrow Night to Select Their Members of Rules Committee.

Washington, March 23.—Interest in the congressional situation centers now in the selection by the Republican caucus of the majority members of the new rules committee of ten—the victory wrung last week from the Cannon organization by the insurgents.

A surprise has been sprung on the insurgents by the calling of that caucus for tonight. It had been expected that it would not be held until Saturday. The Democrats had intended to caucus today, but changed the time to tomorrow night, when they heard of the new move by the regular Republicans.

Representative Dwight, of New York, the Republican whip, circulated the call for the Republican caucus for tonight and soon received a sufficient number of signatures. Some insurgents signed the call.

When he heard of the call for tonight, Representative Hayes, of California, who presided at all the meetings of the insurgents, said:

"It doesn't sound just right to me that this caucus has been moved forward from Saturday night to tonight. It looks as though they are trying to rush things."

"The insurgents will have a conference on this subject. I don't believe that many of the insurgents will enter the caucus, unless we know positively in advance who the selections are going to be."

"I will not stand for men who are close to Speaker Cannon being named as the Republican members of the new committee," said Mr. Hayes. "There are a lot of other insurgents who feel the same way. We would lose the fruits of our victory. The country would laugh at us."

Many prominent insurgents like Murdock, of Kansas; Norris, of Nebraska, and Lemroot, of Wisconsin, have expressed their intention of entering the caucus without further assurances.

Representative Lincoln Dixon, of Indiana, is prominently mentioned as one of the Democratic members of the new committee.

Cannon Takes No Active Part. Speaker Cannon is not taking any leading or dominating part in the proceedings of the house, nor is he talking for publication about his attitude on the subject.

From a source near the speaker, it was learned that he felt that the majority which had taken control of things last Saturday was responsible for legislation, and that it might be poor taste for him to make suggestion or to attempt to have anything to do with the direction of affairs.

Many committees of the house resumed business. Representative Townsend of Michigan, who has the administration railroad bill in charge, said that he expected to report it from committee tomorrow.

Speaker Cannon is growing calm. That is, he is qualifying his speech of last Saturday night in which he was quoted as calling the insurgents who threw him off the rules committee "cowards" and "traitors."

Still it is evident that defeat after many victories and long autocratic rule rankles in Cannon's breast.

Peace Up to Speaker.

It can be said authoritatively that it is "up to" Mr. Cannon to say whether there will be peace in the house or renewed war. The insurgents are anxious to stop fighting. They demand no recognition on the new rules committee, although they say it would be a gracious thing for the regulars, who will control the caucus, to select one man from their number for the place. All they ask is that the regulars recognize the existence in the house of a majority that is in favor of liberalizing the rules and refrain from making up a committee "objectionable to the house as a whole and to the country."

Madriz Asks Recognition.

Washington, March 23.—President Madriz, of Nicaragua, has offered to give the United States every guarantee demanded for the safety of American life and interests in that country in return for a formal recognition of the legality of his government. Senor Corea, who represents Madriz at Washington, has been in communication with the state department on this subject.

FOR THE THIN AND SCRAWNY

Samose will Make You Plump and Rosy Says L. M. Buehler.

If you are getting thin, you are sick, although you may not know it. If you are losing weight steadily, there is something wrong that needs looking after. If you have always been thin, it doesn't follow that you are sick, but you may not be healthy. You cannot be strong if you are thin.

The only way to increase the weight and gain health and flesh is by using Samose, the standard flesh forming food and tissue builder. It mingles with the food you eat and is assimilated so that all the flesh forming and tissue building elements of the food are retained in the system. This explains the great value of Samose.

Weigh yourself before you begin using Samose. It will not cost you a cent unless it increases your weight and restores your health.

L. M. Buehler sell every package on a genuine guarantee to refund the money if it does not do all that is claimed for it.

WOMEN FIGHT WITH KNIVES

Tragic Duel Between Tennessee Girls Who Loved Same Man.

Nashville, Tenn., March 23.—News reached here of a duel between two women at Kingston, Tenn., on Sunday night. Just after church services, Rosa Cowan and Nellie Taylor quarreled over the affections of a man. Both drew knives.

When others attempted to prevent the women from fighting, it is said the man about whom the altercation started interfered, and with leveled revolver ordered the women to be allowed to fight it out.

The duel continued until the throats of both had been cut and Rosa Cowan lay dead. Nellie Taylor is not expected to live.

GOES DEMOCRATIC

Eugene N. Foss Elected to Congress in Mass. Republican Stronghold.

Breton, Mass., March 23.—For the first time in its history this congressional district, the Fourteenth, went Democratic, when Eugene N. Foss, of Boston, not a resident of the district, was elected over William R. Buchanan, Republican, of this city, by a plurality of 5640. The special election was held to fill the vacancy caused by the death of William C. Lovering, a Republican, who represented the district since 1896. Mr. Lovering had 14,000 Republican plurality when he was re-elected in 1908.

WESTERN TRAINMEN GRANTED INCREASE

Arbitrators Raise Wages Owing to High Food Prices.

Chicago, March 23.—An increase of 3 cents an hour to switchmen and of \$5 a month to switch tenders and townsmen of several railroads is granted in a decision of the federal arbitration board, announced here.

The increase is retroactive, going into effect Feb. 10, 1910, on the following railroads which became involved in a wage controversy with the Switchmen's Union of North America: Chicago & Eastern Illinois, Chicago & North Western, Chicago & Great Western, entire system except Twin Cities district; Chicago, Rock Island & Pacific, entire system except Invergrove, Minn.; Terminal Transfer railroad, entire system; Lake Shore & Michigan Southern, yards only; Michigan Central, west of Detroit river; Pere Marquette, entire system, and Wisconsin Central, Chicago switching district.

The advance is justified by the arbitration board on the grounds of increased cost of living, approximated at 25 per cent in the last four years. An increase in the pay of assistant yard masters was denied.

FOUND DEAD IN CLUB

Mystery in Death of Prominent York, Pa., Politician.

York, Pa., March 23.—Vincent R. Weaver, former clerk of the courts of York county and prominent in Democratic politics and secret society circles, was found dead in the rooms of the Spring Garden Social club. Coroner J. de Hoff said he believes death was due to natural causes, although suicide was not impossible. The body was found by members of the club who were searching for him at the request of Mrs. Weaver. He was found reclining on a couch, his head resting on a cushion and his hands folded across his breast. His hat was near and a half-burned cigar was lying on the table.

Sixteen Sons Fought in Civil War.

Moundsville, W. Va., March 23.—Mrs. Sarah Brandon, aged 109 years, of this city, holds the record as the mother of the largest number of Civil War soldiers. No less than sixteen of her boys served in that war, fourteen on the Union side and two with the Confederacy.

ROOSEVELT SENDS FOR PINCHOT

Deposed Forester Sails to
Meet ex-President.

KEPT TRIP A SECRET

Tock With Him a Trunkful of Matter
Bearing on the Baiting Controversy—Meeting Causes Stir Among
Taft Supporters.

Washington, March 23.—Gifford Pinchot will meet Theodore Roosevelt in Naples. It was announced positively that the ex-president had cabled for the deposed ex-forester to come to Europe to see him.

This meeting with his former chief, and not a visit to his sister in Copenhagen, is the real mission of Mr. Pinchot, who unexpectedly sailed from the United States last Friday. His name was not on the passenger list.

As this is the first outward and tangible evidence that Roosevelt has manifested of his renewed interest in American politics, it has aroused an immense amount of gossip at the capital. It is well known here that a number of the men who have gone up the Nile to greet the ex-president are pronounced insurgents. Whether they have induced him to send for Mr. Pinchot is a question that can only be answered by the imagination. Pinchot, it is said, carried to the American hunter a trunkful of matter bearing upon the Taft administration, with particular reference to Secretary Ballinger and the Alaskan scandal and to the insurgent uprising in congress.

Pinchot and Roosevelt are the warmest personal friends and when the latter occupied the White House the former was a constant visitor and adviser. Having been deposed by President Taft as chief forester for alleged insubordination, Pinchot naturally is in a mood to carry his troubles to Colonel Roosevelt.

But the interesting query is this: What will be Roosevelt's answer? Not necessarily his public answer, but his answer made in private to Pinchot and the others who see him? The very last thing the Taft administration desires is an unfriendly attitude on the part of Roosevelt when he returns home.

For this reason some of President Taft's supporters will now urge the sending of an emissary to see Roosevelt for the purpose of telling him the other side of the story. They realize the enormous popular following of the Rough Rider and they will require all of his influence at the coming congressional election to keep down the insurgent move.

The going of Pinchot has consequently been like the thrust of a thorn to the anti-Roosevelt or the pro-Taft congressmen. It was an entirely unexpected blow and they do not try to conceal their annoyance.

As a sign of the aggressive insurgent spirit, the sending for Pinchot, by what Congressman Palmer, of Pennsylvania, said was the "greatest insult of them all," leaves little to the imagination.

Friends of the Taft administration assert that Mr. Roosevelt will hear Mr. Pinchot and then uphold the Taft administration. They cannot bring themselves to believe that Mr. Roosevelt intends to take issue openly with President Taft on the conservation or any other policy.

A QUICK THINKER

Belated Charity Just Arrives to Relieve Johnstown Flood Sufferers.
Johnstown, Pa., March 23.—Almost twenty-one years after the Johnstown flood a Brooklyn man has awakened to a realization that financial distress may have followed the calamity and has sent \$5 to Mayor Alexander Wilson to be devoted to relief.

The accompanying letter is signed "Well Wisher," and reads:
"Enclosed find \$5 which please apply to relief of any family that may be in need, that suffered from the Johnstown flood of 1889."
Mayor Wilson will give the money to the charity.

SEE MAN BURN TO DEATH

Lighted Cigarette Ignited Powder Covered Clothing of Workman.
New Castle, Pa., March 23.—A cigarette falling on his powder-covered clothes caused the death of Mathew Madison, an employee of the Burton Powder company, near here. His companions were forced to watch him burn to death for fear that their own clothes would become ignited.

Naval Estimates Cut.
Washington, March 23.—The naval appropriation bill, carrying \$129,027,603, was reported to the house by the naval committee. This amount is about \$2,000,000 less than the department's

estimates. The bill provides for a naval increase of two first-class battle ships, one repair ship, two fleet colliers and five submarines.

Will Not Prosecute Cudahy.
Kansas City, Mo., March 23.—The case growing out of the attack made by J. P. Cudahy, the packer, upon Jere Mills, the banker, was dismissed in the municipal court here by Daniel Howell, assistant city attorney.

BIG PYTHON BOSSES SHIP
Monster Snake Got Loose and Sailors Had Their Troubles.

Boston, March 23.—When the big British freighter Indian came into port from the Far East one section of the vessel was in control of a monster python.

The python, which is more than thirty feet long, was one of a shipment of six which was taken on board at Singapore.

Four days ago the largest of the pythons suddenly became active. It worked the cover off its box and stretched itself on the deck. In an attempt to capture the reptile the sailors pushed a plank into its mouth. The python lashed about with the plank injuring several of the men. When all efforts to get the monster back into his cage had failed the sailors hoisted up the space where the python lay and his snakehead was still in charge of his share of the deck when the Indian arrived here.

PICK GAYNOR FOR PRESIDENT
Massachusetts Manufacturer Offers to Bet \$10,000 He Succeeds Taft.

Lee, Mass., March 23.—R. B. Andrews, a manufacturer and man of wealth, is out with an offer to bet \$10,000 that Mayor Gaynor, of New York, will be the next president of the United States, barring death.

"The country is tired of Taft and tariff," said Mr. Andrews. "Every one of the conservative Republicans is disappointed in Taft. What we hoped for was a man on the job and not a president chasing around to act as a side show for a game ball game, a promoter of golf, a hot-spur artist. The whole country is tired of it."

Schwab Strikers and Police Clash
State Troopers Stop Jeers at Workmen.

South Bethlehem, Pa., March 23.—A clash between state constabulary and strikers of the Bethlehem Steel company broke out at Third and Elm streets.

Denied the privilege of parading in the streets, the strikers, about 500 in number, took to the sidewalks about the time the company's employees left the works.

The strikers at first were orderly, and so long as they kept walking, the constables, who were stationed along the curb, kept quiet. A trolley car loaded with employees on their way to work for the night shift happened along, and its approach was greeted with jeers.

Then some one shouted an offensive word at the troopers. It so happened that in the marching crowd of strikers was a state constable in citizens' clothes. He grabbed two men who were yelling, and in an instant the trooper was in the midst of trouble. He was being roughly handled as his fellow constables rushed up.

The crowd melted fast, but not before John Solomon, Marko Hion and John Kodansky were arrested.

With the grey and rail mills running with full forces, Bethlehem Steel company officials said the works were in no wise handicapped by the walk-out of a score of helpers in the open hearth department of the Saucon plant.

The open hearth furnaces are the source of supply of the other mills. The strike assumed no new phase looking toward a settlement.

Peter Mastin was found lying in the middle of Linden street, with his head covered with blood. According to a physician, the wounds might have been inflicted by the calks of horses' hoofs. Later it was found that Trooper Hilton had unknowingly run down the man in the dark while going after the strikers' pickets.

TRAINMEN VOTE TO STRIKE
New Haven System Employees May Go Out If Company Refuses Demands.

New Haven, Conn., March 23.—The vote of conductors and trainmen on the New York, New Haven & Hartford railroad system, on the question of a strike, should the conference committee be unable to get a satisfactory settlement of the wage and schedule demands, is understood to be overwhelmingly in the affirmative.

Upon the completion of the count a sub-committee left the headquarters of the committee and went to the railroad offices. It was understood that a conference was being sought with Mr. Higgins, general manager, to whom the result of the poll was to be announced.

Big Game Sports Sore.
Liverpool, March 23.—The Post says: "There is some soreness among big game shots over the Roosevelt expedition. They are asking why the British government should have afforded special facilities to the expedition, which has resulted in the acquisition by America of very rare specimens, which up to now are conspicuous by their absence from museums in England, and as yet has denied the privilege of shooting over these preserves by Englishmen."

Mrs. Morse Fights to Free Husband.
Atlanta, Ga., March 23.—Mrs. Charles W. Morse reached Atlanta and after a visit to her husband in the United States penitentiary announced that the fight for his freedom would be pushed at once in the courts.

BABY'S SCALP ALL CRUSTED OVER

With Eczema That Broke Out when
but Three Months Old—Burned
and Itched So She Could Not Sleep
—Chance of Cure Seemed Slight.

CURE BY CUTICURA
EASY AND COMPLETE

"Our little daughter, when three months old, began to break out on the head and we had the best doctors to treat her, but they did not do her any good. They said she had eczema. Her eyes became crossed from the disease and her scalp was covered with scales all over. The burning and itching was so severe that she could not rest, day or night. We had about given up all hopes when we read an advertisement of the Cuticura Remedies. We at once got a cake of Cuticura Soap, a box of Cuticura Ointment and one bottle of Cuticura Resolvent and followed directions carefully. After the first dose of the Cuticura Resolvent, we used the Cuticura Soap freely and applied the Cuticura Ointment. Then she began to improve rapidly and in two weeks the scales came off her head and new hair began to grow. In a very short time she was well. Her eyes were perfectly straight when she recovered and have been so ever since. She is now sixteen years of age and is a picture of health. We know the Cuticura Remedies cured her and have used them in our family ever since."

"We used the Cuticura Remedies about five weeks, regularly, and then we could not tell she had been affected with any disease which readily suggests burning and itching and hard, scaly, dandruff-looking scales all over her head and in places on her body. We used no other treatments but the Cuticura Remedies and she was cured for her. J. Fish and Ella M. Fish, Mt. Vernon, Ky., Oct. 12, 1909."

For preserving, purifying and beautifying the skin, scalp, hair and hands; for eczema, rashes, itching and chafings; and for the prevention of the same; as well as for the sanative, antiseptic cleansing of ulcerated, inflamed mucous surfaces and other uses which readily suggest themselves to women, Cuticura Soap and Cuticura Ointment are indispensable.

Cuticura Soap (25c) to Cleanse the Skin. Cuticura Ointment (50c) to Heal the Skin and Cuticura Resolvent (50c), for the form of Chocolate Coated Tablets, for the purpose of Purifying the Blood, are sold throughout the world. NINE MORE BRIBE- TAKERS CONFESS

Pittsburg Councilmen Get Im-
munity Bath.

ONE "YELLED" FOR A DIME

Twenty-three Have Refused to Con-
fess and Will Fight Charges—Lives
of Prosecutors Threatened.

Pittsburg, March 23.—Nine more former members of councils appeared before the district attorney and confessed their guilt in accepting money for their votes while members of the municipal bodies, and were then rushed before Judge R. S. Frazer, where they received their immunity bath in the way of a suspended sentence. Men admitted taking bribes from \$50 upwards.

Threats against the lives of the vice crusaders is the latest sensation in the councilmanic cases.

Detective Robert Wilson, of Scranton; District Attorney Blakeley, A. Leo Weil, of the Voters' league, and Assistant District Attorney Warren I. Seymour are said to be in immediate danger of their lives, so much so that each is supplied with an armed guard. Both Weil and Seymour have received anonymous letters ordering them to desist from further activities if they are not seeking an early grave.

The fact that a "postponed sentence" which is a new term Judge Frazer is using for a suspended sentence in the cases of the men who confess, really is a conviction and bars these men ever holding office in Pennsylvania, is believed to have had its effect, and the balance of the councilmen are prepared to fight not only for their liberty, but also for their political life.

Twenty-three Will Fight.
It is known that twenty-three of the accused councilmen have banded together for the purpose of refuting the testimony of their companions in councils. They will fight to the last ditch, and already several of them are talking of bringing suits for damages against Dr. W. H. Weber, who brought several of these men into the limelight by declaring he had given Councilman Kearns money with which to pay them.

Representative Charles C. Schadt is among the holdouts. He is indignant that he should have been accused of accepting \$100 for his vote, and declares he will prove somebody has made a bad mistake before he gets through.

John F. Klein was before the grand jury the greater part of the day, and continued his narrative of councilmanic graft. Klein recounted some of his experiences in handing out the money to the councilmen.

"Yelled Like a Stuck Pig."
"There was one fellow," he said, "who was a regular daisy—a regular Shylock for the dough. In the South Seventh street business I handed him \$81. He looked at me for a few minutes and then yelled like a stuck pig for the extra 10 cents. You know \$81.10 was the standard price in that deal. Well, he got the 10 cents all right."

All the nine men who confessed to the district attorney will appear before the grand jury to tell their stories. District Attorney Blakeley will, as soon as the councilmen and bribe-takers have been rounded up, go after the bribe-grabbers. These are said to be bank officials of institutions whose names have never heretofore been breathed in connection with the graft probe of the past two years.

The "tip" has been passed to these bank men that they may come in under the "immunity" extended by the district attorney, but as they have thus far failed to avail themselves of the opportunity, it is reported that some bombshells will be dropped into the social construction of Pittsburg when county detectives "turn the money changers" out of "their own temples" and bring them before the bar of justice.

Heinze Pleads Not Guilty.
New York, March 23.—Judge Holt, in the United States circuit court set the trial of F. Augustus Heinze on charges of over certification and misapplication of the funds of the Mercantile National bank, for April 25. The copper magnate formally pleaded not guilty. The last indictment against Heinze was filed March 3, the first indictment two years ago.

Daniel Has Fighting Chance.
Daytona, Fla., March 23.—United States Senator John W. Daniel still has a fighting chance for life, according to a statement issued by his physicians. Slight involuntary movements of the paralyzed limbs were noted. Although his pulse is slightly more rapid, the doctors assert general conditions are satisfactory.

Baby Fatally Burned.
Crisfield, Md., March 23.—The one-year-old daughter of Louis Hargis was fatally burned while lying in a baby carriage at its home on Fourth street. The arms and legs of the little one were burned to a crisp, all the clothing burned from the body and the hair from the child's head.

Ten Doctors Said He Would Die

"In 1903 we wrote you regarding my husband, who was suffering from heart trouble. He was superannuated by the North Georgian Conference. Ten doctors at different times said he would die. You advised Dr. Miles' Heart Remedy and Restorative Nervine; we did as advised, and improvement was apparent from the very first. He recovered and the Conference in 1904 gave him a charge. He never felt better, although he has very heavy work and does a great deal of camp meeting work. I am so glad we took your advice and gave him the medicine, and feel that I ought to let you know of the wonderful good results from its use."

MRS. T. S. EDWARDS,
Milner, Ga.

This proves what Dr. Miles' Heart Remedy will do. Get a bottle from your druggist and take it according to directions. It does not matter whether your heart is merely weak, or you have organic trouble, if it does not benefit you take the empty bottle to your druggist and get your money back.

THE TALE OF THOUSANES

The Scientist and His Great Discovery.

Many things have been advertised in the local papers for human ailments, but nothing has created the talk and enthusiastic praise in this city and vicinity like Root Juice. Most of those who take the remedy a short while can not say too many good things for the scientist and his wonderful health promoting discovery. While here the scientist said: "The medicine does not cure disease; it simply removes the cause and gives nature a chance. That is why so many people get well after taking the Juice awhile." Many local people permitted their names to be published in this paper because the remedy cured them and they continue to report at the drug store some great good the Juice is doing. It is certainly a great medicine for the stomach, liver and kidneys. Indigestion, rheumatism, backache, sick headache, nervousness, and other symptoms of a disordered condition of the digestive and secretory organs are soon removed under the Juice treatment. They are pleased to tell about it at the People's drug store. Root Juice is \$1 a bottle. Three bottles for \$2.50.

TO OWNERS OF STALLIONS

Prothonotary W. A. Tainhaubach desires us to call attention to an Act of Assembly approved April 25th 1907, which reads in part as follows: "That every person, firm or company standing or traveling any stallion for breeding purposes, in this State, shall cause the name, description and pedigree of such stallion to be enrolled by the State Livestock Sanitary Board, and procure a certificate of such enrollment from said Board which shall thereupon be presented to and recorded by the Prothonotary of the county or counties in which said stallion is used for public service.

"Violations of any part of this act shall be punishable by a fine not exceeding fifty dollars."

Dipping Sheep Effectively.

To rid sheep of external parasites or the scab mite they should be dipped in some effective dip. Coal tar dips are effective, nonpoisonous and do not ordinarily injure the wool. They are therefore considered among the best. Before using all dips should be tested.

JOHN R. KUNKLE.

Mr. Sunderland

By WALTER PARKINSON

Copyright, 1910, by American Press Association.

Miss Councilman doted on the novels of Clarence Sunderland. He had a faculty for taking a motif from the realm of sin and treating it so ingeniously that it held the reader spellbound and so deftly that the horrible features were kept in the background. Mr. Sunderland received many letters from readers of his works asking questions about some point of especial interest to the writer. Among those who wrote him was Miss Councilman, wishing to know if he intended Abel Maxey, one of his characters, for a good or a bad man. Mr. Sunderland replied that, although Maxey had poisoned three different people, he intended him for a good man. The story had been written with a purpose, that purpose being to work out a theory.

Miss Councilman's admiration for the author was in proportion to her want of understanding of his meaning. There must be great depth to an intellect that could see good in a triple murder, and she knew there was profundity in the theory worked out in the novel, for she did not understand a word of it. She wrote again to Mr. Sunderland, and his reply, in which the word "ganglia" occurred several times—a word she had never heard before—increased her admiration for him tenfold.

The correspondence went on till a meeting was arranged between the correspondents. They were to meet at the office of Mr. Sunderland's publishers. Miss Councilman did not live in the city. She was a denizen of the country. So on the appointed day she took a train to keep the appointment. In seats adjoining hers were two men who from their rough costume looked as if they belonged rather in the baggage car.

"Spudgeon," said one of these men to the other, "what are you going to do with Harberg?"

The man addressed looked furtively about him, then replied in a low tone: "Kill him."

Miss Councilman started. She glanced at the speaker, and, whether he bore the marks of a villain or whether her imagination pictured him as such, he certainly looked murderous.

"How you going to do it?"

"I tell you, Krinkle," said Spudgeon, "the trouble is in the way."

Here the door was opened, and the rattle of the train prevented the listener from hearing any more of the reply. The next bit of the conversation she heard was from Krinkle.

"I've only been obliged to kill three persons."

"That's nothing. I've killed twelve. When you've killed that many you're up a stump for a new way of doing the job."

"I've no business to do that kind of work. It gets on my nerves. What I do takes an awful hold of me. I can't sleep nights. I see the ghosts of those I've murdered, and they make me crawl."

"Humph! Mine don't trouble me." Then they fell to speaking of something else. A diver had gone to the bottom of a reservoir full of water, been caught in the mouth of an escape pipe and sucked in. The conversationists had gone to the spot for the purpose evidently of enjoying the agony of those who were interested in the poor creature below, for they talked over every terrible feature as though they enjoyed it.

All this was too much for Miss Councilman's nerves. She arose and went to the other end of the car. She wondered if she had not better speak to the conductor. Could he know that he had two such ogres aboard his train? Certainly the police should be informed. Nevertheless she dared not have anything to do with the matter.

The man Spudgeon before confessing that he was going to put Harberg out of the way had given her a look as though he feared she might hear him. He would discover sooner or later that she had given him away and would probably kill her. This last consideration decided her to hold her tongue.

In novels she had admired those who risked death for justice's sake, but when it came to giving her own life for the cause she was not to be counted on. So she sat shivering in a corner till the train rolled into the terminal and waited till the two ogres had got out before she dared leave the car.

Miss Councilman took a cab and was driven to the publishers. Sending in her card to the senior partner, she was ushered into his private office.

"Ah, Miss Councilman! Miss Councilman, this is Mr. Sunderland!"

Mr. Sunderland advanced, with a smile. Miss Councilman shrank away.

"Spudgeon," she gasped.

"That's my real name," replied the gentleman. "It's so fearfully homely that I write under another."

"But the people!"—She could not go on.

"What people?"

"You have murdered!"

The gentleman burst into a laugh. "I recognize you," he said, "for the young lady who sat by Mr. Krinkle and me on the train. We are both scribblers and have to commit many murders on paper. We had been studying from real life at the scene of an accident and were dressed for the purpose."

Miss Councilman was disillusioned. Without one word she turned on her heel and left the two men dumfounded. Returning to her home, she dropped novel reading and never again sought to know an author.

CAUSES OF CHICK MORTALITY.

The great death rate among chicks may mostly be ascribed to weak ancestry, faulty incubation and brooding, insanitary surroundings and bad feeding.

Stock weakened by disease, inbreeding, lice, filth, fat and underfeeding breeds disease targets.

While modern chicken machinery surpasses the hen in quantity of production, Biddy is still ahead in hatching beautiful, livable, vigorous chicks, and the many clasp, firetrap incubators and brooders, most of them made to catch bargain buyers, with their faulty ventilation and regulation are responsible for millions of chicks dead in the shell and the great mortality after hatching. White diarrhea, the dread scourge of artificially hatched chicks, is caused by faulty

chick machinery and is seldom seen when chicks are hatched under hens.

The idea that this disease originates in the hen and is on the eggshell and thus goes to the newly hatched chicks is amusing.

Washing eggs with disinfectants will never wash away conditions that come from bad air, overheating and chilling in nature faking chicken machinery.

Then so many forget that chicks are babies and need tender care.

They raise them on the hoppen plan. But filth begets parasites and disease germs, is attended with bad air and dampness; hence come pip, roup, rheumatism, indigestion and gapes, the latter killing millions annually.

So many lose their heads when the hatching season comes and in their eagerness to "get out all they can" fill everything to overflowing with chicks when their housing and feeding ability is only half what is necessary, and as a result, from overcrowding, underfeeding and heat, many die and the remainder, from such conditions, are weak.

Many still cling to old style, sloppy feeds, which bring on deadly bowel troubles.

Wet cornmeal, which soon turns sour and is assisted in its destructive

ness by filth tracked on to it by chicks, is a frequent cause of mortality and is no longer used by up to date poultry raisers, who have adopted the principle, "Dry feed only."

This article preaches the doctrine—prevention is easier and cheaper than cure.

By hatching eggs from vigorous breeders in dependable incubators, raising them on dry feed in good brooders and giving them proper care we raise about 95 per cent to full maturity.

Many are following our methods as set forth in this paper and, we are glad to say, are reporting success.

DON'TS.

Don't throw feathers away, even if you pick only a few at a time. Soft cushions are good for boils.

Don't scald legs and heads of poultry. It makes them appear like sick stock.

Don't think ambition unbacked by determination will carry you through. If at first you don't suck eggs, try, try again.

Have Your Deeds Recorded

By an Act of Assembly of 1893, "All Deeds and Conveyances shall be recorded within ninety days after their execution, or shall be adjudged fraudulent and void against subsequent purchasers." Also the Act of Assembly of 1909, prescribes a short form of Deeds, and "again requires the recording to make them valid." It is also a great protection against loss or deed being burned by having them recorded, and costs but a small sum, compared to getting a new deed.

Bring or send them into the Recorder's office and in a few days they will be returned to you.

JACOB A. APPLER, Recorder.
